

Defend Your Boat's Vinyl From Sun Damage

System Designed UV Protector w/Conditioner

Defend your boat's vinyl surfaces against harsh UV rays with Xanigo Marine's powerful UV Protector and Conditioner. Specially formulated to prevent sun damage and fading while the conditioner hydrates and nourishes your seats to extend the life of your vinyl. Safe for use on all colors, it leaves no oily residue and helps maintain a clean, like-new appearance. Designed to work seamlessly with the Xanigo Marine Mold & Mildew Prevention System, this product is the perfect addition to your full-coverage protection routine. To achieve the best results overall, use the full Xanigo System which includes stain remover, waterless wash, mold and mildew preventer, quick wash and UV protector. All of these designed not break the mold and mildew preventer's bond for the longest lasting prevention possible.

THE BENEFITS

Simple application reduces the risk of the sun fading or cracking your vinyl. Applying once every 90 days after applying your Xanigo Marine Mold Preventor gives you added protection.

Enable your Xanigo Marine mold preventer to stay active as long as possible while adding additional protection to your vinyl, allowing your interior to last longer.

- PROTECTS FROM FADING
- HYDRATES TEXTILES TO EXTEND LIFE
- SAFE ON ALL COLORS AND NO OILY RESIDUE
